SUMMARY

Seeking an entry-level opportunity and passion for innovation in a challenging engineering role to contribute to the organizational growth.

EDUCATION

Anna University College of Engineering, Panruti (UCEP) **Tamil Nadu, India**
- Bachelor's Degree in Computer Science 2020 - 2024
- CGPA : 7.83

SKILLS

- Programming Languages : Python, Java
- Frameworks & Libraries : Flask, Numpy, Pandas, Scikit-learn, TensorFlow, NLTK, Streamlit.
- Web Development : HTML, CSS
- Database Management : SQL (Microsoft SQL Server, SSMS)
- Version Control : Git , GitHub
- Tools : Power BI , Microsoft Excel (Advanced), N8N

PROJECTS

AI Chatbot using Groq API | *Link* **Oct - 2025**
- Built an interactive chatbot with Streamlit and Groq API, featuring real-time responses and session-based chat history.
- Deployed on Streamlit Community Cloud. | *link: https://simplegroqchatbot.streamlit.app/* click "**Wake up**" if it's asleep.

Gmail Automation Workflow using N8N (low-code tool)| *Link* **Sept - 2025**
- Built an automated Gmail workflow in n8n, That classifies incoming emails (Important, Personal, Transactional, Other) using Text Classifier and OpenAI Chat Model.
- Automatically drafts context-aware replies and saves them in Gmail as drafts.

E-commerce Customer Reviews Sentiment Analysis using NLP | *Link* **Jul - 2025**
- Built an NLP model for e-commerce customer review sentiment classification using TF-IDF and Logistic Regression.
- Implemented text preprocessing pipeline with stopword removal, lemmatization, number & punctuation filtering.

Rice Leaf Disease Detection System using CNN | *Link* **May - 2024**
- Collaborated with classmates to develop a deep learning model using CNN to detect and classify major rice leaf diseases such as leaf blast, bacterial blight and brown spot.
- Implemented image processing techniques to analyze leaf images and accurately identify the disease type, enabling timely intervention for farmers to manage and mitigate crop losses effectively.

CERTIFICATIONS

2025 Guvi – Generative AI Certificate.

2025 GeeksforGeeks – Python & Java Programming Certificate.

2024 HackerRank – SQL Certification.

ADDITION SKILLS

- Problem Solving
- Analytical Thinking
- Decision-making
- Team Collaboration
