SUMMARY

Computer Science Engineer with a strong foundation in software development, data structures, algorithms and problem-solving skills. Skilled in database management, software testing and version control systems. Seeking to leverage my technical expertise and passion for innovation in a challenging engineering role to contribute to organizational growth.

EDUCATION

University College of Engineering | *Panruti Campus* **Tamilnadu**
- Bachelor Degree in Computer Science 2020 - 2024
- CGPA : 7.89

Saraswathi Vidyalaya Her Sec School (HSC) **Tamilnadu**
- Computer Science (State Board) 2019 - 2020

EXPERIENCE

Tata Groups | *Virtual Intern* | *Certificate Link* Aug -2024
Data Visualisation: Empowering Business with Effective Insights Job Simulation
- Completed a simulation involving creating data visualizations for Tata Consultancy Services.
- Designed visuals for data analysis to help executives with effective decision making.

SKILLS

- Python
- Java
- C++
- SQL(MS SQL Sever, SQL Server Management Studio (SSMS))
- Power BI (Power Query, Data Model, DAX)
- Microsoft Excel (Advanced)
- Git & Git Hub

PROJECTS

RICE LEAF DISEASE DETECTION SYSTEM USING CNN| *GitHub Link* **May - 2024**
- Collaborated with classmates to design and implement this project in college .
- Developed this project involved developing a machine learning model using Convolutional Neural Networks (CNN) to detect and classify major rice leaf diseases such as leaf blast, bacterial blight and brown spot. The system utilizes image processing techniques to analyze leaf images and accurately identify the disease type, enabling timely intervention for farmers to manage and mitigate crop losses effectively.

CERTIFICATION

2024 Microsoft Power BI in Microsoft Fabric Certificate on UDEMY. | *Link*

2024 HackerRank Python Certificate. | *Link*

2024 HackerRank SQL Certificate.| *Link*

ADDITION SKILLS

- Analytical Thinking • Problem solving • Decision-making • Team Collaboration
